Make MS use the custom install on their software - especially the OS. I
don't need IE, Outlook, etc as I am not using MS software. I don't mind
paying for the parts that are included, but I damn sure don't want to
install what I don't need. I really resent having MS trying to get me to
use my computer their way! (I run Adobe, Corel and Opera) - All those
programs let me custom install.
